

JAYASANKAR BOLLAM

Full Stack Developer (MERN)

7036610695 | jayasankarbollam01@gmail.com | [LinkedIn](#) | [GitHub](#) | jayasankar.me | Visakhapatnam, India

PROFESSIONAL SUMMARY

Motivated Computer Science graduate (2026) specializing in Full Stack MERN Development. Experienced in building and deploying production-grade web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in RESTful API design, JWT authentication, Razorpay payment integration, real-time communication with Socket.io, and Next.js SSR. Strong understanding of component-based architecture, role-based access control, responsive UI design, and full-cycle deployment on Render and Vercel.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Core Java, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap CSS, Flexbox, Grid, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Auth, bcryptjs, MVC Architecture, Socket.io, Middleware, Nodemailer

Databases: MongoDB, Mongoose ODM, MySQL

Payments & Storage: Razorpay Payment Gateway, Cloudinary API, Multer (File Uploads)

State & Integration: React Hooks, Context API, Axios, React Router DOM

Tools & Platforms: Git, GitHub, VS Code, Postman, Render, Vercel, Linux, Agile/Scrum

AI/ML & Computer Vision: Python, Django, YOLOv8, OpenCV, NumPy, Pandas, Matplotlib

PROJECTS

NatuKodi – Country Chicken Farm E-Commerce [Live Demo](#) / *MongoDB, Express.js, React.js, Node.js, Razorpay*

Jan – July 2026

- Built a production-deployed full stack MERN e-commerce platform for a country chicken farm with Razorpay payment gateway integration, OTP-based forgot password via Nodemailer, and Cloudinary image uploads
- Implemented role-based access control (admin/user), weight-based dynamic pricing, delivery slot booking, and real-time order status tracking (placed → confirmed → packed → delivered) with 20+ REST API endpoints
- Developed admin dashboard for managing products, orders, and inventory; deployed backend on Render and frontend on Vercel with MongoDB Atlas as cloud database

Chatty – Real-Time Messaging App [Live Demo](#) / *MongoDB, Express.js, React.js, Node.js, Socket.io*

July – Aug 2025

- Built a production-deployed MERN messaging app with JWT authentication, bcryptjs password hashing, protected route middleware, and Cloudinary-powered profile uploads; deployed on Render & Vercel
- Implemented real-time bi-directional messaging via Socket.io (WebSockets); managed MongoDB/Mongoose schemas for users, messages, and conversations with cross-domain JWT via Authorization headers

BitLinks – URL Shortener [GitHub](#) / *Next.js, Tailwind CSS, MongoDB, REST API*

June 2025

- Built a full stack URL shortening app using Next.js App Router with REST API endpoints for generating, managing, and resolving short URLs; leveraged SSR for fast page loads and SEO optimization

Animal Species Detection – YOLOv8 [GitHub](#) / *Django, YOLOv8, OpenCV*

Nov-April 2025

- Built a real-time animal species detection web app using a custom-trained YOLOv8 model on ~2,300 annotated images, identifying 19 species classes with 76.3% mAP@0.5, trained on a Tesla T4 GPU
- Modernized the codebase: replaced hardcoded credentials with Django's authentication system, secured environment variables, upgraded to Django 4.2 LTS, and rewrote documentation for recruiter presentation

INTERNSHIPS

Full Stack Java Developer Intern / *SkillDzire*

May – June 2025

- Built full stack web applications using Core Java, JDBC, MySQL, and Spring Boot; implemented RESTful backend modules, MVC architecture, and database CRUD operations — directly applicable to Node.js/Express development

Web Development Intern / *SmartBridge*

July – Aug 2024

- Designed responsive, cross-browser UI components using HTML5, CSS3, and JavaScript with Flexbox/Grid layouts; built interactive interfaces laying the foundation for React.js component-based development

EDUCATION

B.Tech in Computer Science & Engineering / *Chaitanya Engineering College, Visakhapatnam*

2022 – 2026

CGPA: 8.03 / 10.0

Higher Secondary (12th) / *Vaishnavi Junior College, Tuni*

2020 – 2022

Percentage: 84.2 / 100

Secondary (10th) / *Sunflower EM School, Payakaraopeta*

2019 – 2020

Percentage: 94.5 / 100

CERTIFICATIONS

Full Stack Development (MERN) • Infosys Certified MEAN Stack Developer • Full Stack Java – SkillDzire • Oracle Cloud Infrastructure 2025 Certified GenAI Professional • Excel To Python Analytics – DevTown • Designing Scalable RAG Pipelines – Scaler

ACHIEVEMENTS

- 24-Hour SEO-Friendly Website Hackathon – Ranked 13th out of 60+ teams across Visakhapatnam colleges (March 2025)
- Code Cracking Competition – Secured 2nd place in inter-department coding contest (March 2025)
